Because this site is dedicated to free books, there's none of the hassle you get with filtering out paid-for content on Amazon or Google Play Books. We also love the fact that all the site's genres are presented on the homepage, so you don't have to waste time trawling through menus. Unlike the bigger stores, Free-Ebooks.net also lets you sort results by publication date, popularity, or rating, helping you avoid the weaker titles that will inevitably find their way onto open publishing platforms (though a book has to be really quite poor to receive less than four stars).

I'm late to the game, but yes you can upgrade the Aspire 5532 to Windows 10. I'm currently on Version 10.0.18363 Build 18363 and have no issues. I did upgrade my RAM recently from 3 gigs to 4, but even before that, it ran. I don't do anything labor intensive on this laptop. Usually just use it for surfing the web and occasionally ZOOM.
