AP Biology Reading Guide Chapter 51 Animal Behavior Answers

Before beginning your study of each chapter, be sure you have a clear understanding of the terms in the chapter title. Concept 53.1 Dynamic biological processes influence population density, dispersion, and

AP Biology Reading Guide Chapter 53: Population Ecology ...

24. Explain why a large value for $(K-N)/K$ predicts growth close to the maximum rate of increase for this population. K (carrying capacity) – N (population size) is the number of additional individuals the environment can support, so $(K - N)/K$ is the fraction of K that is still available for population growth. When N is small compared to K , the term $(K - N)/K$
