longer than you might think. Packard invented automotive AC all the way back in 1939, and in 1940 was the first car company to offer factory-installed air conditioning. Of course, this early system didn't have a thermostat, but it was better than not having anything at all. The idea caught on, though, and by 1969, more than half of all new cars were sold

Common Problems

Download File PDF Automotive Air Conditioning

System 5th Edition

A faulty automotive air conditioner can be one of the more difficult issues to diagnose and repair. If your car's air conditioner isn't blowing cold air, the first thing you should look for are signs of leaking or an A/C compressor that does not engage.

3 Ways to Fix Your Car's Air Conditioner - **wikiHow**

Download File PDF Automotive Air Conditioning

We offer an A/C Evacuate and Recharge, where we void the air conditioning system of old refrigerant and then recharge the system with new refrigerant. We then inspect the car A/C system's pressure and temperature control to make sure everything is working correctly for a car air conditioner recharge service.
