Automotive Paints and Coatings

Ulrich Poth addresses the people who are entrusted with raw materials, systems and application procedures. Furthermore, "Automotive Coatings Formulation" is addressed to chemists, physicists, engineers and other technically interested persons.

American Coatings Bookshop — Technical books for the US ...

In the 1990s, another major development occurred in the formulation of automotive coatings: the use of waterborne basecoats. The chemistries of these basecoats can vary from water-reducible acrylics and polyesters, to acrylic latexes, to polyurethane dispersions, but the common factor is the use of water as one of the main volatile components. ...

A Brief History of Automotive Coatings Technology ...

formulation. This formulation, incorporates an acrylic resin with OH-functionalities and a reactive polyurethane crosslinker. The rest of the world mostly uses a one-component formulation based on acrylic resins and melamine crosslinkers [10].

Evolution of the Automotive Body Coating Process—A Review

Ulrich Poth approaches the people who are entrusted with raw materials, systems and application procedures. Furthermore, Automotive Coatings Formulation is addressed to all chemists, physicists, engineers and other technically interested persons.

Automotive Coatings Formulation ~ Archie Paint

24 European Coatings JOURNAL 07/08 | 2014 www.european-coatings.com Resistance to suntan lotion can also be improved The "100 %" formulation was also investigated in relation to other aspects of chemical resistance. Resistance against suntan lotion is known to be very relevant for automotive interior coatings but recently this has also be -
